-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. After further review and reconsideration, the finality of the Office action mailed June 28, 2005 is hereby withdrawn in order to introduce the following new ground of rejection.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 12 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Durr (6,446,270). Durr discloses the basic claimed procedure for the replicative fabrication and packaging of at least one molded part as one magazine or frame or liner/molded part composite including (1) fabricating at least one molded part using a prefabricated magazine or frame or liner (118), wherein the prefabricated magazine or frame or liner carries the at least one molded part by holding contact of at least parts of the side surfaces of the molded part (i.e., the sides of the helmet), (2) simultaneously demolding the magazine or frame or liner and the at least one molded part composite (column 7, lines 28 and 29), (3) removing the at least one molded part from the prefabricated magazine or frame or liner (column 7, lines 29-31), and (4) reusing the prefabricated magazine or frame or liner to fabricate at least one additional molded part (column 3, lines 45-46 and column 7, lines 31-33). Durr appears not to state that the molded part formed possesses a microstructure, but Official Notice is taken by the examiner that molded articles tend to adapt a surface structure that reflects a texture or microstructure present in a mold cavity surface.

Durr teaches the use of a split mold tool having first and second mold tool halves, as in claim 13, in Figure 6.

4. Claims 1-11 and 25-33 are allowed.

5. Applicants' arguments filed December 19, 2005 have been fully considered but they are not persuasive. Applicants' arguments in the Appeal Brief are considered to be moot by the examiner based on the revised ground of rejection introduced in this Office action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Allan Kuhns whose telephone number is (571) 272-1202. The examiner can normally be reached on Monday to Thursday from 7:00 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Colaianni, can be reached on (571) 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
